## Introduction

Welcome to the IX International Renewable Energy Conference, Energy Saving and Energy Education (CIER 2017), hosted by The Study Centre for Renewable Energy Technologies (CETER), located at the Technological University of Havana José Antonio Echeverría (CUJAE) Cuba.

The current focus on Cuba's renewable energy sector is ambitious with the Government proposing to boost investment by USD 3.5 billion in order to reach its goal of generating 24 per cent of its power from renewable energy by 2030.

CIER 2017 will bring together hundreds of scientists, engineers, manufactures, investors, policy makers, energy users and other specialists from across the entire international renewable energy spectrum to exchange knowledge, debate and analyse the global efforts currently being carried out in the field. This is all with the objective of intensifying the introduction of renewable energy technologies and promoting synergies towards the challenge of achieving sustainable energy development across Cuba and the Caribbean.

## Overview

# SHARING EXPERIENCES AND PROMOTING SYNERGIES TOWARDS THE CHALLENGE OF ACHIEVING SUSTAINABLE ENERGY DEVELOPMENT

Since its inception in 1997, CIER has always been an arena for the international scientific community to come together to debate and to analyse the global efforts being made to develop and intensify the use of renewable energy technologies.

### CONFERENCE

A programme of top quality speaker sessions, workshops and panel debates has been created to engage and inspire delegates.

### EXHIBITION

Expo CIER 2017 will give companies the opportunity to display their commercial and scientific products and services to an audience of senior industry professionals from across the renewable energy sector.

### NETWORKING

Excellent networking opportunities will allow delegates to engage with peers from local, regional and international businesses that want to develop business opportunities in a relaxed and friendly environment.

## Conference Programme and Theme

# WORKING TOWARDS 100% RENEWABLE ENERGY SOURCES IN THE CARIBBEAN

The theme for CIER 2017 is 'Working towards 100% renewable energy sources in the Caribbean.' A full and varied conference and speaker programme will feature over nine technical and strategic sessions and over 12 prominent industry specialists, representing both the regional and international renewable sector.

### CONFERENCE THEMES

- Renewable energy, hybrids and energy storage
- Energy saving, management and efficiency
- Energy management and saving in transport
- Energy, science, technology and society
- Culture and Energy Education

### CALL FOR ABSTRACTS

The call for abstracts is open until 1st March 2017 with paper submissions to be completed by 1st April 2017. Please visit [www.cuba-renewables.com](http://www.cuba-renewables.com) for full details or contact [cier@ceter.cujae.edu.cu](mailto:cier@ceter.cujae.edu.cu) with questions.

### WORKSHOPS THEMES

- International Wind Energy Workshop
- International Workshop of Hydrogen as an alternative fuel
- International Workshop of Photovoltaic Solar Energy
- International Workshop of Biodiesel
- International Workshop about the Biomass
- Doing Business in Cuba
- Alternative Energy Opportunities in Cuba
- International Workshop of Tidal and Wave Energy
- International Workshop of Waste to Energy

### DELEGATE PRICES

€500 per person, including access to all sessions, documentation and all networking functions

## Expo CIER 2017

### DISPLAY YOUR FINDINGS, EXPOSE YOUR BUSINESS, MARK YOUR DIFFERENCE

Expo CIER 2017 will offer space for commercial and scientific exhibits across all areas of the renewable energy field.

From accreditation, certification and finance institutions, to the building services and products required for the installation of energy systems, through CIER Expo 2017, organisations can showcase achievements of the present and compromises for the future.

Stand prices start from €400 per square metre.

## Networking

### THE MEETING PLACE FOR INVESTMENT OPPORTUNITIES

Networking is an important part of CIER 2017 and time is specifically factored into the conference programme to allow for networking during the breaks.

In addition, Expo CIER 2017 presents further opportunity to form business relationships, share information and develop potential partnerships within the industry.'

## Sponsorship and Branding

With the world's eyes turning towards Cuba, the IX International Renewable Energy Conference, Energy Saving and Energy Educationx (CIER) promises a year of widespread industry support and following from all the senior players in the industry. The CIER sponsorship packages offer branding opportunities extensively through the conference and exhibition and during the months leading up to the event. The sponsors of CIER receive widespread recognition in the national and international press, through global marketing campaigns and PR coverage as well as the post event media reporting.

CIER offers sponsorship packages to suit all marketing deliverables and budgets. The committee will welcome any suggestions you have and can build any bespoke packages around your marketing plans. All sponsors will be invited to contribute presentations within the main conference programme to share their vision and expertise with the CIER audience.

The following table outlines the sponsorship menu available and the inclusions for each level that can be selected according to your budget. Due to demand, spaces and packages will be allocated on a first-come-first-served basis.
